Ever wondered about the eight-legged creature known as the wolf spider? These fascinating creatures are not your average spiders, they are large and hairy, but don't worry, they're not as scary as they look! With their eight eyes arranged in three rows, they have a unique appearance. Sporting a coat that's a mix of grey and brown, they blend seamlessly into their surroundings.

Speaking of surroundings, ever wondered where these cool spiders like to hang out? Wolf spiders can be found all over the world, from gardens to forests, and even in some desert regions. They're not the web-spinning type, they prefer to live in burrows or under rocks, always on the lookout for their next meal. And, guess what? They can even walk on water!

Now, you might be asking, 'What's on the menu for a wolf spider?' Well, these spiders are true carnivores, they love munching on insects and other small spiders. In fact, they are known as excellent hunters, using their speed and agility to catch their prey. And unlike most spiders, they don't build webs to catch their food, they use their strong, fast legs to chase and pounce on their meals.

You might not know this, but wolf spiders have an interesting relationship with us humans and other animals. While they might look a bit scary, they are actually quite shy and try to stay away from people. They can bite if they feel threatened, but their venom is usually harmless to humans and pets. So, next time you spot a wolf spider, remember they're just fascinating creatures doing their best to survive in the wild, just like us!

Solve each problem.

Use the article to answer the question.

1) Which choice do wolf spiders eat?
A. Leaves
B. Insects
C. Seeds
D. Fruits

2) How do wolf spiders get their food?
A. They trap them in webs
B. They steal food from other animals
C. They wait for food to come to them
D. They chase and pounce on their meals

3) What is the color of a wolf spider's coat?
A. Red and blue
B. Black and white
C. Grey and brown
D. Yellow and green

4) Do wolf spiders build webs?
A. No
B. Only male spiders
C. Yes
D. Only female spiders

5) Where might wolf spiders live?
A. In trees
B. In caves
C. In water
D. In burrows

6) How many rows of eyes does a wolf spider have?
A. One
B. Four
C. Two
D. Three

7) Where can wolf spiders be found?
A. Only in tropical regions
B. All over the world
C. Only in desert regions
D. Only in the Arctic region

8) Are wolf spiders harmful to humans and pets?
A. Only to humans
B. Usually not
C. Always
D. Only to pets

9) Where would you be most likely to find a wolf spider in the wild?
A. Mountains and rocks
B. Gardens, forests, and desert regions
C. Oceans and seas
D. Cities and towns

10) How many eyes does a wolf spider have?
A. Eight
B. Two
C. Four
D. Six

11) What do wolf spiders look like?
A. Large and smooth
B. Small and smooth
C. Large and hairy
D. Small and scaled

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

1-10	95	90	85	80	75	70	65	60	55	50
11-20	45	40	35	30	25	20	15	10	5	0

12) "Although I have venom, it's mostly harmless to humans and pets."

13) "As a carnivore, I don't eat plants, instead my diet is mostly small insects."

14) "My covering of grey and brown helps me blend in with my surroundings - it's like my own natural camouflage!"

15) "I'm not an excellent hunter; I wait for my food to come to me."

16) "Did you know that I can walk on water? It's one of my special skills!"

17) "Building webs to catch food is my main hunting method."

18) "I'm not much of a carnivore, I prefer a plant-based diet."

19) "If you stay away from me, I'll do the same to you."

20) "Other spiders are so lazy! They sit around and wait for prey to wander into their web. I use my amazing speed to catch my prey."

21) "I'm not interested in biting anyone unless I feel threatened."

22) "I am found only in deserts."

23) "I don't spin webs, I prefer to live under rocks or in burrows - it's like my very own secret hideout!"

24) "I'm a vegetarian, I don't eat other insects."

25) "You can find me anywhere from gardens to deserts - I get around!"

26) "I love living in nests up in the treetops."

27) "My venom is extremely dangerous and harmful to humans."

28) "I might look a little weird for a spider with my eight eyes arranged in three rows, but it helps me see better!"

Determine if the statement is a fact or opinion based on the information in the article.

29) Wolf spiders hunt their food instead of building webs to catch it.

30) Wolf spiders are way more interesting than ordinary spiders because they don't build webs.

31) Wolf spiders eat other insects and smaller spiders.

32) It's really exciting to see a wolf spider catch its prey with its strong, fast legs.

33) Wolf spiders have grey and brown tones that help them merge with their environment.

34) It's interesting that wolf spiders use their venom to paralyze their prey.

35) The venom of wolf spiders typically doesn't harm humans or pets.

36) Wolf spiders are capable of walking on water.

37) It's impressive that wolf spiders can live anywhere from gardens to forests and even deserts.

38) Being able to walk on water makes wolf spiders really cool.

Determine if the statement is true or false.

39) Wolf spiders prefer to live in burrows or under rocks.

40) Wolf spiders can't be found in desert regions.

41) Wolf spiders may hunt smaller spiders.

42) Wolf spiders have six legs.

43) Wolf spiders can walk on water.

44) Wolf spiders build webs to catch their food.

45) Wolf spiders' venom can be deadly to humans.

46) Wolf spiders love to socialize with humans.

47) Wolf spiders have a mix of grey and brown coat.

48) Wolf spiders are carnivores.

Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

49) Wolf spiders are fast runners and can chase down their prey.

50) The way wolf spiders carry their babies on their backs is astonishing!

51) Wolf spiders are not harmful to humans.

52) What do wolf spiders eat?

53) How big can wolf spiders get?

54) Wolf spiders don't build webs but hunt for their prey, that's quite a surprise!

55) Wolf spiders are solitary hunters and do not spin webs.

56) Are wolf spiders venomous?

57) Wolf spiders inhabit a wide variety of habitats, it's amazing where you might find them!
