

Solve each problem.

- 1) Partition into 4 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 3 equal pieces and label each partition.

- 5) Partition into 2 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 4 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 3 equal pieces and label each partition.

- 5) Partition into 2 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 6 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 4 equal pieces and label each partition.

- 4) Partition into 2 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 6 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 4 equal pieces and label each partition.

- 4) Partition into 2 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 4 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 6 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 4 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 6 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 3 equal pieces and label each partition.

- 5) Partition into 4 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 3 equal pieces and label each partition.

- 5) Partition into 4 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 4 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 2 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 4 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 2 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 3 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

- 5) Partition into 8 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 3 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 2 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

- 5) Partition into 8 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 2 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 2 equal pieces and label each partition.

- 2) Partition into 8 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 6 equal pieces and label each partition.

- 2) Partition into 2 equal pieces and label each partition.

- 3) Partition into 3 equal pieces and label each partition.

- 4) Partition into 8 equal pieces and label each partition.

- 5) Partition into 4 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 6 equal pieces and label each partition.

- 2) Partition into 2 equal pieces and label each partition.

- 3) Partition into 3 equal pieces and label each partition.

- 4) Partition into 8 equal pieces and label each partition.

- 5) Partition into 4 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 2 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 4 equal pieces and label each partition.

- 4) Partition into 8 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 2 equal pieces and label each partition.

- 2) Partition into 6 equal pieces and label each partition.

- 3) Partition into 4 equal pieces and label each partition.

- 4) Partition into 8 equal pieces and label each partition.

- 5) Partition into 3 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 3 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

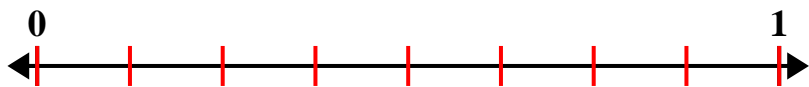

- 5) Partition into 2 equal pieces and label each partition.

Solve each problem.

- 1) Partition into 8 equal pieces and label each partition.

- 2) Partition into 3 equal pieces and label each partition.

- 3) Partition into 6 equal pieces and label each partition.

- 4) Partition into 4 equal pieces and label each partition.

- 5) Partition into 2 equal pieces and label each partition.
