

Use addition strategies with place value to solve.

Ex) $590 - 387 = \underline{203}$
 $0 - 7 = -7$
 $90 - 80 = 10$
 $500 - 300 = \underline{200}$
 203

2) $603 - 531 = \underline{72}$
 $3 - 1 = 2$
 $0 - 30 = -30$
 $600 - 500 = \underline{100}$
 72

4) $534 + 276 = \underline{810}$
 $4 + 6 = 10$
 $30 + 70 = 100$
 $500 + 200 = \underline{700}$
 810

6) $122 + 551 = \underline{673}$
 $2 + 1 = 3$
 $20 + 50 = 70$
 $100 + 500 = \underline{600}$
 673

8) $508 + 382 = \underline{890}$
 $8 + 2 = 10$
 $0 + 80 = 80$
 $500 + 300 = \underline{800}$
 890

10) $594 + 144 = \underline{738}$
 $4 + 4 = 8$
 $90 + 40 = 130$
 $500 + 100 = \underline{600}$
 738

1) $408 + 412 = \underline{820}$
 $8 + 2 = 10$
 $0 + 10 = 10$
 $400 + 400 = \underline{800}$
 820

3) $626 - 436 = \underline{190}$
 $6 - 6 = 0$
 $20 - 30 = -10$
 $600 - 400 = \underline{200}$
 190

5) $366 + 573 = \underline{939}$
 $6 + 3 = 9$
 $60 + 70 = 130$
 $300 + 500 = \underline{800}$
 939

7) $986 - 668 = \underline{318}$
 $6 - 8 = -2$
 $80 - 60 = 20$
 $900 - 600 = \underline{300}$
 318

9) $50 + 780 = \underline{830}$
 $0 + 0 = 0$
 $50 + 80 = 130$
 $0 + 700 = \underline{700}$
 830

11) $252 + 357 = \underline{609}$
 $2 + 7 = 9$
 $50 + 50 = 100$
 $200 + 300 = \underline{500}$
 609

Answers

Ex. $\underline{203}$

1. $\underline{820}$

2. $\underline{72}$

3. $\underline{190}$

4. $\underline{810}$

5. $\underline{939}$

6. $\underline{673}$

7. $\underline{318}$

8. $\underline{890}$

9. $\underline{830}$

10. $\underline{738}$

11. $\underline{609}$
