

Represent each equation with numbers and symbols.

Answers

1) fourteen plus two equals sixteen

1. _____

2) seven plus five equals twelve

2. _____

3) seventeen plus one equals eighteen

3. _____

4) seven plus two equals nine

4. _____

5) seven plus zero equals seven

5. _____

6) six plus zero equals six

6. _____

7) eighteen minus eighteen equals zero

7. _____

8) seven plus four equals eleven

8. _____

9) twenty plus zero equals twenty

9. _____

10) sixteen plus one equals seventeen

10. _____

11) eighteen minus fifteen equals three

11. _____

12) ten plus six equals sixteen

12. _____

13) seven plus six equals thirteen

13. _____

14) seventeen plus three equals twenty

14. _____

15) three plus two equals five

15. _____

16) eighteen plus one equals nineteen

16. _____

17) nineteen minus twelve equals seven

17. _____

18) eleven plus five equals sixteen

18. _____

19) three plus one equals four

19. _____

20) thirteen plus two equals fifteen

20. _____

Represent each equation with numbers and symbols.

- 1) fourteen plus two equals sixteen
- 2) seven plus five equals twelve
- 3) seventeen plus one equals eighteen
- 4) seven plus two equals nine
- 5) seven plus zero equals seven
- 6) six plus zero equals six
- 7) eighteen minus eighteen equals zero
- 8) seven plus four equals eleven
- 9) twenty plus zero equals twenty
- 10) sixteen plus one equals seventeen
- 11) eighteen minus fifteen equals three
- 12) ten plus six equals sixteen
- 13) seven plus six equals thirteen
- 14) seventeen plus three equals twenty
- 15) three plus two equals five
- 16) eighteen plus one equals nineteen
- 17) nineteen minus twelve equals seven
- 18) eleven plus five equals sixteen
- 19) three plus one equals four
- 20) thirteen plus two equals fifteen

Answers

1. $14 + 2 = 16$
2. $7 + 5 = 12$
3. $17 + 1 = 18$
4. $7 + 2 = 9$
5. $7 + 0 = 7$
6. $6 + 0 = 6$
7. $18 - 18 = 0$
8. $7 + 4 = 11$
9. $20 + 0 = 20$
10. $16 + 1 = 17$
11. $18 - 15 = 3$
12. $10 + 6 = 16$
13. $7 + 6 = 13$
14. $17 + 3 = 20$
15. $3 + 2 = 5$
16. $18 + 1 = 19$
17. $19 - 12 = 7$
18. $11 + 5 = 16$
19. $3 + 1 = 4$
20. $13 + 2 = 15$
