

Follow the instructions to find the number you end at.

Ex) Start at 120 and count up 4 times by fives.

- 1) Start at 195 and count up 4 times by fives.
- 2) Start at 621 and count up 5 times by tens.
- 3) Start at 48 and count up 3 times by tens.
- 4) Start at 16 and count up 3 times by tens.
- 5) Start at 583 and count up 5 times by hundreds.
- 6) Start at 681 and count up 5 times by tens.
- 7) Start at 290 and count up 3 times by fives.
- 8) Start at 472 and count up 5 times by hundreds.
- 9) Start at 75 and count up 4 times by hundreds.
- 10) Start at 85 and count up 4 times by tens.
- 11) Start at 884 and count up 2 times by tens.
- 12) Start at 245 and count up 2 times by fives.
- 13) Start at 588 and count up 4 times by tens.
- 14) Start at 17 and count up 2 times by hundreds.
- 15) Start at 660 and count up 4 times by fives.
- 16) Start at 374 and count up 5 times by hundreds.
- 17) Start at 945 and count up 4 times by fives.
- 18) Start at 900 and count up 2 times by fives.
- 19) Start at 477 and count up 3 times by hundreds.
- 20) Start at 170 and count up 5 times by tens.

Answers

Ex. 140

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

9. _____

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____

16. _____

17. _____

18. _____

19. _____

20. _____
