

**Solve each problem.**

**Answers**

- 1) At the fair the 'Twirly Tea Cups' ride can hold nine people per tea cup. If the ride has six tea cups, how many total people can ride at a time?
- 2) Larry's Lawn Care charges four bucks to mow the lawn. If Paul has his lawn mowed four times, how much money did he spend?
- 3) Haley was drawing on scrap paper. She could fit six drawings on each page. If she has six pieces of paper, how many drawings can she make?
- 4) A store owner was buying uniforms for his employees. If each of his four stores needed nine uniforms how many uniforms would he need?
- 5) Maria was buying hand towels for her house. She bought nine packs with each pack having five towels in it. How many towels did she buy?
- 6) A chef can cook three meals in a minute. How many meals could he cook in six minutes?
- 7) A pet store sold eight gerbils in one week. If each of the gerbils cost seven dollars, how much money would they have made?
- 8) Isabel was placing her spare change into stacks. Each stack had nine coins. If she had two stacks, how many coins did she have?
- 9) A toy store sold nine board games in one day. If each game cost two dollars, how much money did they make?
- 10) A delivery driver made exactly six stops each day. After eight days, how many stops would he have made total?
- 11) Bianca was practicing drawing pictures. Each day she drew for six hours. How many hours would she have practiced after four days?
- 12) A library checks out four books an hour. How many books would they have checked out after five hours?
