

**Represent each equation with numbers and symbols.****Answers**

1) twelve minus seven equals five

1. _____

2) twenty minus eighteen equals two

2. _____

3) sixteen minus sixteen equals zero

3. _____

4) nine minus eight equals one

4. _____

5) thirteen minus ten equals three

5. _____

6) sixteen minus eleven equals five

6. _____

7) nineteen minus nineteen equals zero

7. _____

8) twelve minus eight equals four

8. _____

9) eighteen minus sixteen equals two

9. _____

10) seven plus three equals ten

10. _____

11) seventeen plus two equals nineteen

11. _____

12) one minus one equals zero

12. _____

13) eighteen minus eighteen equals zero

13. _____

14) fifteen minus ten equals five

14. _____

15) nine minus nine equals zero

15. _____

16) ten plus six equals sixteen

16. _____

17) fifteen minus fourteen equals one

17. _____

18) nine plus one equals ten

18. _____

19) eleven plus two equals thirteen

19. _____

20) fourteen plus two equals sixteen

20. _____

**Represent each equation with numbers and symbols.**

- 1) twelve minus seven equals five
- 2) twenty minus eighteen equals two
- 3) sixteen minus sixteen equals zero
- 4) nine minus eight equals one
- 5) thirteen minus ten equals three
- 6) sixteen minus eleven equals five
- 7) nineteen minus nineteen equals zero
- 8) twelve minus eight equals four
- 9) eighteen minus sixteen equals two
- 10) seven plus three equals ten
- 11) seventeen plus two equals nineteen
- 12) one minus one equals zero
- 13) eighteen minus eighteen equals zero
- 14) fifteen minus ten equals five
- 15) nine minus nine equals zero
- 16) ten plus six equals sixteen
- 17) fifteen minus fourteen equals one
- 18) nine plus one equals ten
- 19) eleven plus two equals thirteen
- 20) fourteen plus two equals sixteen

Answers

1. $\underline{12 - 7 = 5}$
2. $\underline{20 - 18 = 2}$
3. $\underline{16 - 16 = 0}$
4. $\underline{9 - 8 = 1}$
5. $\underline{13 - 10 = 3}$
6. $\underline{16 - 11 = 5}$
7. $\underline{19 - 19 = 0}$
8. $\underline{12 - 8 = 4}$
9. $\underline{18 - 16 = 2}$
10. $\underline{7 + 3 = 10}$
11. $\underline{17 + 2 = 19}$
12. $\underline{1 - 1 = 0}$
13. $\underline{18 - 18 = 0}$
14. $\underline{15 - 10 = 5}$
15. $\underline{9 - 9 = 0}$
16. $\underline{10 + 6 = 16}$
17. $\underline{15 - 14 = 1}$
18. $\underline{9 + 1 = 10}$
19. $\underline{11 + 2 = 13}$
20. $\underline{14 + 2 = 16}$
