

Determine which fraction goes in the middle to make the comparison true.

**Answers**

1)  $\frac{3}{8}$  < <  $\frac{3}{4}$

$\frac{2}{6}$        $\frac{4}{6}$

$\frac{7}{8}$        $\frac{2}{8}$

2)  $\frac{2}{8}$  < <  $\frac{4}{8}$

$\frac{7}{8}$        $\frac{3}{8}$

$\frac{1}{6}$        $\frac{5}{8}$

3)  $\frac{1}{6}$  < <  $\frac{3}{6}$

$\frac{2}{3}$        $\frac{6}{8}$

$\frac{1}{3}$        $\frac{1}{8}$

4)  $\frac{2}{8}$  < <  $\frac{3}{8}$

$\frac{2}{4}$        $\frac{5}{6}$

$\frac{2}{6}$        $\frac{4}{6}$

5)  $\frac{3}{8}$  < <  $\frac{6}{8}$

$\frac{5}{6}$        $\frac{1}{6}$        $\frac{2}{4}$        $\frac{7}{8}$

6)  $\frac{2}{8}$  < <  $\frac{3}{8}$

$\frac{2}{6}$        $\frac{4}{8}$        $\frac{4}{6}$        $\frac{1}{6}$

7)  $\frac{1}{3}$  < <  $\frac{5}{8}$

$\frac{1}{6}$        $\frac{6}{8}$

$\frac{1}{2}$        $\frac{4}{6}$

8)  $\frac{3}{8}$  < <  $\frac{2}{3}$

$\frac{1}{8}$        $\frac{4}{8}$

$\frac{5}{6}$        $\frac{3}{4}$

Determine which fraction goes in the middle to make the comparison true.

**Answers**

1)  $\frac{3}{8}$  < ? <  $\frac{3}{4}$

$\frac{2}{6}$        $\frac{4}{6}$

$\frac{7}{8}$        $\frac{2}{8}$

2)  $\frac{2}{8}$  < ? <  $\frac{4}{8}$

$\frac{7}{8}$        $\frac{3}{8}$

$\frac{1}{6}$        $\frac{5}{8}$

3)  $\frac{1}{6}$  < ? <  $\frac{3}{6}$

$\frac{2}{3}$        $\frac{6}{8}$

$\frac{1}{3}$        $\frac{1}{8}$

4)  $\frac{2}{8}$  < ? <  $\frac{3}{8}$

$\frac{2}{4}$        $\frac{5}{6}$

$\frac{2}{6}$        $\frac{4}{6}$

5)  $\frac{3}{8}$  < ? <  $\frac{6}{8}$

$\frac{5}{6}$        $\frac{1}{6}$        $\frac{2}{4}$        $\frac{7}{8}$

6)  $\frac{2}{8}$  < ? <  $\frac{3}{8}$

$\frac{2}{6}$        $\frac{4}{8}$        $\frac{4}{6}$        $\frac{1}{6}$

7)  $\frac{1}{3}$  < ? <  $\frac{5}{8}$

$\frac{1}{6}$        $\frac{6}{8}$

$\frac{1}{2}$        $\frac{4}{6}$

8)  $\frac{3}{8}$  < ? <  $\frac{2}{3}$

$\frac{1}{8}$        $\frac{4}{8}$

$\frac{5}{6}$        $\frac{3}{4}$

1.  $\frac{4}{6}$
2.  $\frac{3}{8}$
3.  $\frac{1}{3}$
4.  $\frac{2}{6}$
5.  $\frac{2}{4}$
6.  $\frac{2}{6}$
7.  $\frac{1}{2}$
8.  $\frac{4}{8}$
