Name: _____

Solve each problem.

1) Given the numbers 52 and 35, how much would you need to add to the smaller number to make it even with the larger number?

1. _____

2) Given the numbers 16 and 26, how much would you need to add to the smaller number to make it even with the larger number?

2. _____

3. _____

3) Given the numbers 46 and 71, how much would you need to subtract from the larger number to make it even with the smaller number?

4. _____

4) Given the numbers 79 and 72, how much would you need to subtract from the larger number to make it even with the smaller number?

5. _____

6. _____

5) Given the numbers 31 and 80, how much would you need to subtract from the larger number to make it less than the smaller number?

7. _____

6) Given the numbers 81 and 57, how much would you need to subtract from the larger number to make it even with the smaller number?

8. _____

9. _____

7) Given the numbers 83 and 97, how much would you need to subtract from the larger number to make it even with the smaller number?

10. _____

8) Given the numbers 59 and 17, how much would you need to add to the smaller number to make it even with the larger number?

11. _____

9) Given the numbers 26 and 54, how much would you need to subtract from the larger number to make it even with the smaller number?

12. _____

10) Given the numbers 16 and 56, how much would you need to add to the smaller number to make it greater than the larger number?

11) Given the numbers 92 and 72, how much would you need to subtract from the larger number to make it less than the smaller number?

12) Given the numbers 31 and 91, how much would you need to add to the smaller number to make it greater than the larger number?

8) Given the numbers 81 and 53, how much would you need to subtract from the larger number to make it even with the smaller number?

9) Given the numbers 75 and 44, how much would you need to add to the smaller number to make it greater than the larger number?

10) Given the numbers 72 and 85, how much would you need to subtract from the larger number to make it even with the smaller number?

11) Given the numbers 73 and 79, how much would you need to subtract from the larger number to make it less than the smaller number?

12) Given the numbers 80 and 31, how much would you need to add to the smaller number to make it greater than the larger number?

1. **67**

Solve each problem.

1) Given the numbers 94 and 14, how much would you need to subtract from the larger number to make it even with the smaller number?

1. _____

2) Given the numbers 74 and 43, how much would you need to subtract from the larger number to make it less than the smaller number?

2. _____

3. _____

3) Given the numbers 41 and 74, how much would you need to add to the smaller number to make it even with the larger number?

4. _____

5. _____

4) Given the numbers 30 and 61, how much would you need to subtract from the larger number to make it less than the smaller number?

6. _____

5) Given the numbers 39 and 56, how much would you need to subtract from the larger number to make it less than the smaller number?

7. _____

8. _____

6) Given the numbers 11 and 14, how much would you need to add to the smaller number to make it even with the larger number?

9. _____

10. _____

7) Given the numbers 40 and 34, how much would you need to add to the smaller number to make it greater than the larger number?

11. _____

8) Given the numbers 84 and 62, how much would you need to subtract from the larger number to make it less than the smaller number?

12. _____

9) Given the numbers 25 and 36, how much would you need to add to the smaller number to make it greater than the larger number?

10) Given the numbers 62 and 79, how much would you need to add to the smaller number to make it even with the larger number?

11) Given the numbers 29 and 60, how much would you need to subtract from the larger number to make it less than the smaller number?

12) Given the numbers 72 and 38, how much would you need to add to the smaller number to make it even with the larger number?
