An ice cream store kept track of the different flavored ice cream cones they sold in a day. They recorded the results in the bar graph below. Use their graph to answer the questions.

1) How many cherry cones were sold?

2) Were there more cotton candy or more bubble gum cones sold?

3) Were there fewer vanilla or fewer chocolate cones sold?

4) Which flavor sold exactly 3 cones?

5) What is the difference in the number of cotton candy cones and the number of chocolate cones sold?

6) What is the combined number of bubble gum cones and cotton candy cones sold?

7) Which flavor sold the best?

8) Which flavor sold the worst?

9) How many more chocolate cones were sold than vanilla cones?

10) How many fewer bubble gum cones were sold than vanilla cones?
