Reading a Bar Graph

An ice cream store kept track of the different ice cream cones they sold in a day. They recorded the results in the bar graph below. Use their graph to answer the questions.

IceCream Cones Sold

1) How many Mint cones were sold?

2) Were there more Mint or more Vanilla cones sold?

3) Which flavor sold exactly 8 cones?

4) What is the difference in the number of Vanilla cones and the number of Chocolate cones sold?

5) What is the combined number of Bubble Gum cones and Vanilla cones sold?

6) Which flavor sold the best?

7) Which flavor sold the worst?

8) How many more Mint cones were sold than Cherry cones?

9) How many fewer Cherry cones were sold than Chocolate cones?

10) Were there fewer Mint or fewer Bubble Gum cones sold?
