Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 6 equal parts and label each part.

5) Split the shape into 6 equal parts and label each part.

6) Split the shape into 8 equal parts and label each part.

7) Split the shape into 4 equal parts and label each part.

8) Split the shape into 2 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partitioning Shapes

Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

1/4 1/4

1/4 1/4

4) Split the shape into 6 equal parts and label each part.

1/6 1/6

1/6 1/6

6) Split the shape into 8 equal parts and label each part.

1/8 1/8 1/8 1/8

1/8 1/8 1/8 1/8

8) Split the shape into 2 equal parts and label each part.

1/2

1/2

1) Split the shape into 8 equal parts and label each part.

1/8 1/8

1/8 1/8

3) Split the shape into 3 equal parts and label each part.

1/3 1/3

5) Split the shape into 6 equal parts and label each part.

1/6 1/6 1/6 1/6 1/6 1/6

7) Split the shape into 4 equal parts and label each part.

1/4

1/4

9) Split the shape into 3 equal parts and label each part.

1/3

1/3

1/3
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 3 equal parts and label each part.

3) Split the shape into 6 equal parts and label each part.

4) Split the shape into 4 equal parts and label each part.

5) Split the shape into 6 equal parts and label each part.

6) Split the shape into 8 equal parts and label each part.

7) Split the shape into 2 equal parts and label each part.

8) Split the shape into 4 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partitioning Shapes

Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 3 equal parts and label each part.

3) Split the shape into 6 equal parts and label each part.

4) Split the shape into 4 equal parts and label each part.

5) Split the shape into 6 equal parts and label each part.

6) Split the shape into 8 equal parts and label each part.

7) Split the shape into 2 equal parts and label each part.

8) Split the shape into 4 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 6 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

3) Split the shape into 8 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 4 equal parts and label each part.

7) Split the shape into 6 equal parts and label each part.

8) Split the shape into 3 equal parts and label each part.

9) Split the shape into 2 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 6 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

3) Split the shape into 8 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 4 equal parts and label each part.

7) Split the shape into 6 equal parts and label each part.

8) Split the shape into 3 equal parts and label each part.

9) Split the shape into 2 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 4 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 8 equal parts and label each part.

5) Split the shape into 3 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 4 equal parts and label each part.

8) Split the shape into 8 equal parts and label each part.

9) Split the shape into 6 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 4 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 8 equal parts and label each part.

5) Split the shape into 3 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 4 equal parts and label each part.

8) Split the shape into 8 equal parts and label each part.

9) Split the shape into 6 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 4 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 6 equal parts and label each part.

8) Split the shape into 4 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partition and label each shape.

**Ex)** Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 4 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 6 equal parts and label each part.

8) Split the shape into 4 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 6 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

3) Split the shape into 8 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 4 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 6 equal parts and label each part.

2) Split the shape into 4 equal parts and label each part.

3) Split the shape into 8 equal parts and label each part.

4) Split the shape into 3 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 2 equal parts and label each part.

7) Split the shape into 4 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 4 equal parts and label each part.

2) Split the shape into 8 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 6 equal parts and label each part.

5) Split the shape into 2 equal parts and label each part.

6) Split the shape into 3 equal parts and label each part.

7) Split the shape into 8 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 4 equal parts and label each part.
Partitioning Shapes

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 4 equal parts and label each part.

2) Split the shape into 8 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 6 equal parts and label each part.

5) Split the shape into 2 equal parts and label each part.

6) Split the shape into 3 equal parts and label each part.

7) Split the shape into 8 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 4 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 4 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 4 equal parts and label each part.

7) Split the shape into 2 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.
Partitioning Shapes

Partition and label each shape.

1) Split the shape into 8 equal parts and label each part.

2) Split the shape into 6 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 4 equal parts and label each part.

5) Split the shape into 8 equal parts and label each part.

6) Split the shape into 4 equal parts and label each part.

7) Split the shape into 2 equal parts and label each part.

8) Split the shape into 6 equal parts and label each part.

9) Split the shape into 3 equal parts and label each part.

Ex) Split the shape into 2 equal parts and label each part.
Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.

1) Split the shape into 4 equal parts and label each part.

2) Split the shape into 8 equal parts and label each part.

3) Split the shape into 3 equal parts and label each part.

4) Split the shape into 6 equal parts and label each part.

5) Split the shape into 4 equal parts and label each part.

6) Split the shape into 3 equal parts and label each part.

7) Split the shape into 2 equal parts and label each part.

8) Split the shape into 8 equal parts and label each part.

9) Split the shape into 6 equal parts and label each part.
Partitioning Shapes

Partition and label each shape.

Ex) Split the shape into 2 equal parts and label each part.
