### Finding Elapsed Time

**Determine the elapsed time for each problem.**

1) Isabel and her friends left for the park at 4:40. If they got back at 5:40, how long were they at the park?

2) John started reading a book at 2:55. If he finished it at 5:05, how long did he spend reading?

3) Luke was invited to birthday party that started at 5:20. If the party ended at 8:45, how long did the party last?

4) Maria finished cleaning her room at 8:40. If she had started cleaning it at 6:00, how long did it take her to clean her room?

5) Paul woke up from a nap at 6:05. If he originally went to sleep at 3:10, how long was his nap?

6) Janet's parents left to go shopping at 5:55. If they got back home at 9:05, how long were they gone?

7) Oliver finished his homework at 3:45. If he started working on it at 2:25, how long did it take him to finish?

8) Katie drove to her aunt's house, arriving at 6:40. If Katie started her drive at 5:00, how long did the drive take?

9) Haley started watching TV at 1:30. If she stopped watching at 2:50, how long did she spend watching TV?

10) Mike started exercising at 6:20. If he stopped at 10:00, how long did he spend exercising?
