# Finding Elapsed Time

Determine the elapsed time for each problem.

1) Oliver started looking for his missing cat at 2:40. If he found it at 6:00, how long did he spend looking?  

2) Faye took a train from her house to the state capitol. The train left at 1:05 and got to the capitol at 3:50. How long was the train ride?  

3) Megan finished cleaning her room at 5:45. If she had started cleaning it at 3:15, how long did it take her to clean her room?  

4) Maria finished washing clothes at 9:30. If she had started at 6:15, how long would she have spent washing clothes?  

5) Ned started cleaning up his yard at 6:35. If he finally finished at 7:40, how long did Ned spend cleaning his yard?  

6) Paul started reading a book at 3:00. If he finished it at 4:00, how long did he spend reading?  

7) Debby was helping her mom cook dinner. They finished the meal at 7:35. If they started cooking at 6:20, how long did it take them?  

8) Gwen and her friends left for the park at 6:55. If they got back at 9:55, how long were they at the park?  

9) Katie drove to her aunt's house, arriving at 9:50. If Katie started her drive at 6:15, how long did the drive take?  

10) Cody was invited to birthday party that started at 3:30. If the party ended at 7:25, how long did the party last?

1) Bianca went to the movies at 3:25. If the movie was over at 5:45, how long did the movie last?

2) Vanessa finished cleaning her room at 5:55. If she had started cleaning it at 3:30, how long did it take her to clean her room?

3) Paige finished washing clothes at 5:00. If she had started at 1:20, how long would she have spent washing clothes?

4) Tiffany's parents left to go shopping at 1:35. If they got back home at 3:55, how long were they gone?

5) Zoe drove to her aunt's house, arriving at 9:30. If Zoe started her drive at 6:55, how long did the drive take?

6) Mike started exercising at 6:40. If he stopped at 10:10, how long did he spend exercising?

7) Luke started reading a book at 5:30. If he finished it at 7:25, how long did he spend reading?

8) Billy started cleaning up his yard at 2:45. If he finally finished at 3:50, how long did Billy spend cleaning his yard?

9) John started digging a hole at 4:50. When he finished at 6:10 if was already 4 feet deep. How long did John spend digging?

10) Edward finished his homework at 9:20. If he started working on it at 6:10, how long did it take him to finish?
Find the elapsed time for each problem.

1) Vanessa finished cleaning her room at 9:30. If she had started cleaning it at 6:35, how long did it take her to clean her room?

2) Amy's band practice started at 2:40. If the practice ended at 5:20, how long did it last?

3) Billy finished his homework at 9:25. If he started working on it at 5:55, how long did it take him to finish?

4) Rachel took a train from her house to the state capitol. The train left at 6:45 and got to the capitol at 10:05. How long was the train ride?

5) Mike started looking for his missing cat at 3:20. If he found it at 6:20, how long did he spend looking?

6) Tom's father started working on his truck at 1:00. If he finished working on it at 3:30, how long did he spend working on it?

7) Emily and her friends left for the park at 3:30. If they got back at 6:40, how long were they at the park?

8) Jerry started exercising at 2:50. If he stopped at 6:25, how long did he spend exercising?

9) Wendy went to the town carnival. She arrived at 2:05 and left at 4:05. How long did Wendy spend at the carnival?

10) Faye started watching TV at 4:00. If she stopped watching at 6:35, how long did she spend watching TV?

### Finding Elapsed Time

Determine the elapsed time for each problem.

1. Roger was invited to birthday party that started at 4:45. If the party ended at 7:25, how long did the party last?

2. Jerry started reading a book at 6:50. If he finished it at 10:30, how long did he spend reading?

3. Carol started watching TV at 6:25. If she stopped watching at 10:00, how long did she spend watching TV?

4. Billy woke up from a nap at 5:00. If he originally went to sleep at 3:00, how long was his nap?

5. Adam started playing video games at 1:10. If he took a break at 2:45, how long had he been playing?

6. Robin took a train from her house to the state capitol. The train left at 4:20 and got to the capitol at 5:55. How long was the train ride?

7. Luke's father started working on his truck at 3:50. If he finished working on it at 7:10, how long did he spend working on it?

8. Nancy's parents left to go shopping at 5:15. If they got back home at 8:40, how long were they gone?

9. Haley finished washing clothes at 8:35. If she had started at 5:05, how long would she have spent washing clothes?

10. Tiffany went to the town carnival. She arrived at 6:00 and left at 9:35. How long did Tiffany spend at the carnival?
