

Solve each problem.

- 1) What is the value of the 1 in the number 618,495?
- 2) What is the value of the 4 in the number 37,546?
- 3) What is the value of the 3 in the number 3,678?
- 4) What is the value of the 6 in the number 3,647?
- 5) What is the value of the 2 in the number 29,471?
- 6) What is the value of the 3 in the number 42,931?
- 7) What is the value of the 8 in the number 7,189,362?
- 8) What is the value of the 7 in the number 5,371?
- 9) What is the value of the 3 in the number 29,384?
- 10) What is the value of the 2 in the number 9,642,135?
- 11) What is the value of the 8 in the number 217,984?
- 12) What is the value of the 9 in the number 65,987?
- 13) What is the value of the 5 in the number 1,754,362?
- 14) What is the value of the 5 in the number 35,918?
- 15) What is the value of the 4 in the number 453?
- 16) What is the value of the 1 in the number 416,985?
- 17) What is the value of the 9 in the number 2,398?
- 18) What is the value of the 8 in the number 68,549?
- 19) What is the value of the 9 in the number 681,975?
- 20) What is the value of the 3 in the number 3,184?
