

Determine which choice best answers each question.

Answers

- 1) Which choice has a digit in the ones place that is exactly seven times the value of the digit in the tens place?  
A. 46                      B. 17                      C. 36                      D. 94
- 2) Which choice has a digit in the hundred thousands place that is exactly three times the value of the digit in the ones place?  
A. 5,836,972              B. 8,326,511              C. 5,374,218              D. 5,746,398
- 3) Which choice has a digit in the hundreds place that is exactly twice the value of the digit in the ones place?  
A. 245                      B. 346                      C. 633                      D. 154
- 4) Which choice has a digit in the ones place that is exactly five times the value of the digit in the tens place?  
A. 15                      B. 34                      C. 72                      D. 95
- 5) Which choice has a digit in the ones place that is exactly four times the value of the digit in the hundreds place?  
A. 689,143              B. 198,258              C. 351,462              D. 469,528
- 6) Which choice has a digit in the thousands place that is exactly three times the value of the digit in the tens place?  
A. 6,126                      B. 2,179                      C. 7,362                      D. 4,892
- 7) Which choice has a digit in the ones place that is exactly three times the value of the digit in the hundreds place?  
A. 347                      B. 257                      C. 195                      D. 369
- 8) Which choice has a digit in the tens place that is exactly twice the value of the digit in the hundreds place?  
A. 79,244                      B. 37,965                      C. 61,784                      D. 93,417
- 9) Which choice has a digit in the ones place that is exactly twice the value of the digit in the tens place?  
A. 48                      B. 42                      C. 95                      D. 19
- 10) Which choice has a digit in the tens place that is exactly four times the value of the digit in the thousands place?  
A. 49,631                      B. 18,564                      C. 71,146                      D. 51,934
