- 8) Drum brakes are introduced by Renault. (1902)
- 9) Turn signals begin appearing on cars. (1935)
- 10) First car body made entirely with steel. (1914)

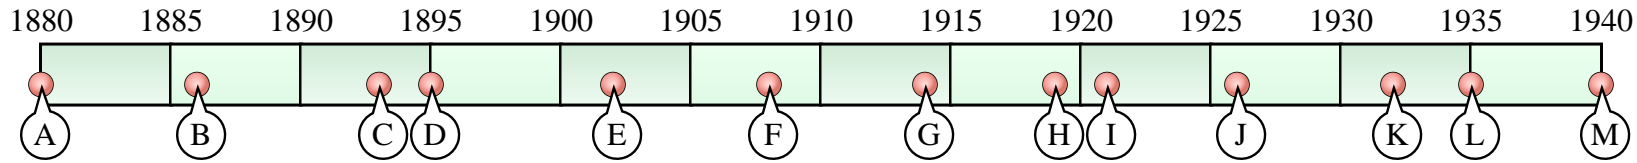

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____

Solve each problem.

Advances in Automobiles

- 1) Karl Pabst creates the jeep. (1940) **M**
- 2) Karl Benz creates the first practical automobile. (1880) **A**
- 3) First power steering system is introduced. (1926) **J**
- 4) Henry ford begins making the model T. (1908) **F**
- 5) The first electric starter is introduced on the 'Anold' automobile. (1895) **D**
- 6) Hydraulic brakes are invented by Malcolm Loughead (co-founder of lockheed). (1919) **H**
- 7) The first motorcycle is created by Gottlieb Daimler and Wilhelm Maybach. (1886) **B**
- 8) Drum brakes are introduced by Renault. (1902) **E**
- 9) Turn signals begin appearing on cars. (1935) **L**
- 10) First car body made entirely with steel. (1914) **G**

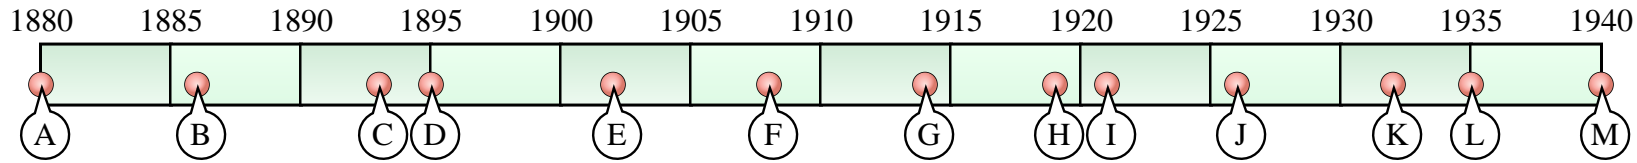

Answers

1. **M**
2. **A**
3. **J**
4. **F**
5. **D**
6. **H**
7. **B**
8. **E**
9. **L**
10. **G**

Solve each problem.

Advances in Automobiles

- 1) Karl Pabst creates the jeep. (1940) (B or M)
- 2) Karl Benz creates the first practical automobile. (1880) (A or F)
- 3) First power steering system is introduced. (1926) (J or G)
- 4) Henry ford begins making the model T. (1908) (F or L)
- 5) The first electric starter is introduced on the 'Anold' automobile. (1895) (D or B)
- 6) Hydraulic brakes are invented by Malcolm Loughead (co-founder of lockheed). (1919) (H or M)
- 7) The first motorcycle is created by Gottlieb Daimler and Wilhelm Maybach. (1886) (B or M)
- 8) Drum brakes are introduced by Renault. (1902) (E or G)
- 9) Turn signals begin appearing on cars. (1935) (D or L)
- 10) First car body made entirely with steel. (1914) (G or L)
