

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $485 \div 10 = 48 \text{ r } \underline{\hspace{2cm}}$

2) $145 \div 5 = 29 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $481 \div 5 = 96 \text{ r } \underline{\hspace{2cm}}$

4) $66 \div 2 = 33 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $28 \div 5 = 5 \text{ r } \underline{\hspace{2cm}}$

6) $8,117 \div 5 = 1,623 \text{ r } \underline{\hspace{2cm}}$

3. _____

4. _____

7) $250 \div 2 = 125 \text{ r } \underline{\hspace{2cm}}$

8) $9,278 \div 5 = 1,855 \text{ r } \underline{\hspace{2cm}}$

5. _____

6. _____

9) $89 \div 2 = 44 \text{ r } \underline{\hspace{2cm}}$

10) $564 \div 10 = 56 \text{ r } \underline{\hspace{2cm}}$

7. _____

8. _____

11) $1,844 \div 10 = 184 \text{ r } \underline{\hspace{2cm}}$

12) $940 \div 2 = 470 \text{ r } \underline{\hspace{2cm}}$

9. _____

10. _____

13) $347 \div 5 = 69 \text{ r } \underline{\hspace{2cm}}$

14) $354 \div 10 = 35 \text{ r } \underline{\hspace{2cm}}$

11. _____

12. _____

15) $418 \div 2 = 209 \text{ r } \underline{\hspace{2cm}}$

16) $26 \div 5 = 5 \text{ r } \underline{\hspace{2cm}}$

13. _____

14. _____

17) $794 \div 10 = 79 \text{ r } \underline{\hspace{2cm}}$

18) $26 \div 2 = 13 \text{ r } \underline{\hspace{2cm}}$

15. _____

16. _____

19) $567 \div 10 = 56 \text{ r } \underline{\hspace{2cm}}$

20) $2,674 \div 2 = 1,337 \text{ r } \underline{\hspace{2cm}}$

17. _____

18. _____

19. _____

20. _____

Use multiplication rules to determine the missing remainder for each problem.
