

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $601 \div 5 = 120 \text{ r } \underline{\hspace{2cm}}$

2) $1,127 \div 2 = 563 \text{ r } \underline{\hspace{2cm}}$

1. _____

3) $6,742 \div 10 = 674 \text{ r } \underline{\hspace{2cm}}$

4) $2,216 \div 5 = 443 \text{ r } \underline{\hspace{2cm}}$

2. _____

5) $71 \div 5 = 14 \text{ r } \underline{\hspace{2cm}}$

6) $782 \div 10 = 78 \text{ r } \underline{\hspace{2cm}}$

3. _____

7) $79 \div 10 = 7 \text{ r } \underline{\hspace{2cm}}$

8) $7,877 \div 5 = 1,575 \text{ r } \underline{\hspace{2cm}}$

4. _____

9) $5,857 \div 5 = 1,171 \text{ r } \underline{\hspace{2cm}}$

10) $2,938 \div 5 = 587 \text{ r } \underline{\hspace{2cm}}$

5. _____

11) $653 \div 10 = 65 \text{ r } \underline{\hspace{2cm}}$

12) $511 \div 2 = 255 \text{ r } \underline{\hspace{2cm}}$

6. _____

13) $58 \div 5 = 11 \text{ r } \underline{\hspace{2cm}}$

14) $57 \div 10 = 5 \text{ r } \underline{\hspace{2cm}}$

7. _____

15) $127 \div 2 = 63 \text{ r } \underline{\hspace{2cm}}$

16) $51 \div 10 = 5 \text{ r } \underline{\hspace{2cm}}$

8. _____

17) $493 \div 10 = 49 \text{ r } \underline{\hspace{2cm}}$

18) $8,469 \div 2 = 4,234 \text{ r } \underline{\hspace{2cm}}$

9. _____

19) $916 \div 2 = 458 \text{ r } \underline{\hspace{2cm}}$

20) $1,119 \div 2 = 559 \text{ r } \underline{\hspace{2cm}}$

10. _____

11. _____

12. _____

13. _____

14. _____

15. _____
