Finding Percent of a Number (Exact Percentage) Name:

Solve each problem.

1) 138 is what percent of 92?

2) 84 is what percent of 168?

3) 8 is what percent of 80?

4) 14 is what percent of 140?

5) 99 is what percent of 132?

6) 105 is what percent of 140?

7) 8 is what percent of 160?

8) 70 is what percent of 140?

9) 2 is what percent of 40?

10) 78 is what percent of 104?

11) 190 is what percent of 152?

12) 20 is what percent of 100?

13) 354 is what percent of 177?

14) 248 is what percent of 124?

15) 238 is what percent of 119?

16) 11 is what percent of 44?

17) 9 is what percent of 6?

18) 96 is what percent of 192?

19) 75 is what percent of 60?

20) 32 is what percent of 160?

Answers

1. _____
2. _____
